Teaching Experiences

- 2017/2020 Teaching experience at undergraduate schools in: *Mathematics and physics*
- 2002/2003 Teacher at CEPU for graduate school students in: *Mathematical Analysis I and II*
- 1997/1999 Teaching experience at undergraduate schools in: *Mechanics, Electro-Technique, Electronics, Digital Electronics*

Professional Experience

- 2015/2017 SARA electronics, Perugia, Italy. *Theory, hardware, software and applications for seismology*
- 2012/2015 Seismic Observatory "Andrea Bina" of Perugia, Italy. Project on: *A new type of meteorological instrument*
- 2011/2012 Anglia Ruskin University, Cambridge, UK. Support for a PhD on: *Animal behaviour observed with earthquakes, experimental strategies*
- 2010/2011 National Institute of Nuclear Physics, Perugia, Italy. *Correlation data analysis between cosmic ray bursts and geophysical effects*
- 2009/2010 National Institute of Nuclear Physics, Perugia, Italy. *Correlation algorithm development to study NOAA data and seismic phenomena*
- 2009/2009 SERMS, Terni, Italy. *Study of the seismic effect perception from the L'Aquila population*
- 2008/2009 National Institute of Nuclear Physics, Perugia, Italy. *Sampex data analysis and correlations between cosmic ray particle bursts and geophysical effects*
- 2007/2007 National Institute of Nuclear Physics, Perugia, Italy. *Algorithm development to study the Van Allen Belts stability*
- 2006/2007 National Institute of Nuclear Physics, Perugia, Italy. *ASI-LUNA project to propose scientific experiments on the Moon*
- 2006/2007 Agenzia Spaziale Italiana, Luna project, Perugia, Italy. *Simulation of a calorimeter for the cosmic rays on the moon*
- 2005/2007 Italian Committee for Project Hessdalen, Bologna, Italy. *Scientific support for physical evaluation and hypotheses*
- 2004/2005 National Institute of Geophysics and Vulcanology, L'Aquila, Italy. *Electromagnetic emissions linked to tectonic and volcanic activity*
- 2003/2004 National Laboratory of Gran Sasso, L'Aquila, Italy. *Development of calculus methodologies in the seismological fields on the parallel calculator IBM pSeries 670*
- 2002/2003 Camerino University, Camerino, Italy. *Study of the effects of lateral and radial non-homogeneity on co-seismic superficial deformations*
- 2001 Camerino University, Camerino, Italy. *Penning Traps*
- 2001 Camerino University and F.Ili Guzzini Spa, Recanati, Italy. *Deposition of thin metal films on polymeric surfaces*

Education

- 2002 Ph.D. in Physics, Camerino University, with final thesis entitled: *Error probability in non-linear dispersive optical fibres*
- 1999 Hiking Guide
- 1997 Military Service
- 1996 Degree in Physics. Camerino University, with final thesis entitled: *Signal to noise ratio in non-linear optical fibres having third order susceptibilities*
- 1989 Diploma in Electronics, ITIS Montani, Fermo, Italy

Professional skills

Operating systems: UNIX, Ubuntu, Macintosh, Windows 9x, XP, VISTA, 7, 8, 10

Software: Word, Office, LaTeX, Excel, Origin, Mathematica, Matlab, Maple, Octave, Spectrumlab, Root, Word Press, Spice, Seismowin, QGis, Surfer, PicoScope

Programming: Monte Carlo simulations in Fortran and C, Okada direct model of co-seismic deformations from the fault geometry; Inversion algorithms on parallel calculator with Adaptive Simulated Annealing and Neighbourhood Algorithm; N-tuple data analysis in Fortran, HBOOK Cern libraries; Geomagnetic models in Fortran, IGRF12; Monte Carlo simulations in C++ with Geant4; Orbital motion and changes in the coordinates of the Earth, the Moon, Planets and their tidal effects; calculus of the Total Harmonic Distortion, ray propagation in a stratified media, pixel recognition, wave peaking, HVSR, fractal dimension and Hurst exponent in Basic and Visual Basic

Electronics: 1) component knowledge; 2) soldering; 3) servicing and testing electronic circuits; 4) electric field meter realisation; 5) magnetic induction meter realisation; 6) electronic project building; 7) printed circuit board realisation; 8) radio receiver and transmitter realisation; 9) GPS rtx adaptation; 10) serial, parallel and USB ports I/O; 11) power supply realisation; 12) digital electronics experiences; 13) computer hardware; 14) recycling of electronics

Theory of electromagnetic interaction with matter: electric and magnetic constants in linear and non-linear medium as well as electromagnetic waves in solids, gasses and liquids; quantum theory of the electromagnetic field; quantum theory of atom-photon interaction; charged particles in the electromagnetic field; Van Allen Belts; ionospheric processes; atmospheric electric circuit, waves

in the crust, ellipticity curves in a stratified medium with dissipation

Database: NOAA and SAMPEX satellite statistical data analysis and verify of the correlation between particle bursts and seismic activity obtained in previous works

Test beam: participation at the Frascati National Laboratory to test the feasibility of the AIGLON particle detector dedicated to the study of earthquakes from satellites

Professional Projects

2019 - present Extension of the Central Italy Electromagnetic Network to monitor ULF and ELF magnetic fields in six station and realization of a mu metal core magnetometer

2013 - 2016 Project financed by the Umbria Region on a meteorological instrument patented as ELECTRODYNAMIC PLUVIOMETER; the prototype development and experimentation were carried out at the "A. Bina" Observatory in Perugia

2011 Collaborative Project LOTHAR, FP7-ENV-2012-two-stage, proposes a focused effort on continuous monitoring of processes at the ground-to-air and ground-to-water interfaces around active seismic zones combined with concomitant monitoring of the seismic activity as well as electromagnetic and related phenomena

2008 - present An analysis is being performed on the CIEN data to compare them to earthquakes, meteorology, atmospheric transient luminous phenomena and ionospheric phenomena

2007 - present NOAA satellite statistical data analysis in adiabatic coordinates to search a correlation between particle bursts and seismic activity, a result was obtained which was in agreement with previous works

2006 - 2016 Constitution of the CIEN to study ELF and VLF electric field in a seismic area, with 16 operative stations in 2015

2006 - 2008 A recording system for CIEN data was realised by personal computer

2003 - 2007 Realisation of CIEN instruments and their further enhancement through experimentation

2000 - 2005 Historic-bibliographical research to determine the best type of electromagnetic monitoring system in ULF, ELF, VLF and LF bands in order to fully record and carry out spectrum analyses and compare geophysical phenomena

Patents

Electrodynamic Pluviometer No. 102016000077834; deposited on July 25, 2016; approved on January 31, 2019. A large range of rainfall levels evaporation free are now measurable through this invention which realise the measurements with resolutions of seconds and by no-mechanical parts. This small pluviometer as compared to the currently used, is a full solid state device.

C. Fidani, *A possible contribution made by Science of Global Information*, Cifa News, Supplemento a Ricerca Aerospaziale, Anno XXII, p. 14-16, http://www.cifafoundation.org/CIFA_News/CIFA_News_39.pdf, December 2006

C. Fidani, Six reports for the local council of Faenza on the activity of Raffaele Bendandi: which contains 142 forecasts of earthquakes, 2004

C. Fidani and M. de Crescenzi, *Analysis of Core Cu Fractures in Sandwiched Methylmethacrylate Plates*, report for Guzzini spa, 2002

Schools, Meetings and Conferences

38th GNGTS, November 12-14, 2019, CNR Roma, with a presentation and a poster

105th CONGRESSO NAZIONALE SOCIETA' ITALIANA DI FISICA, September 23-27, 2019, L'Aquila, with two presentation

37th GNGTS, November 19-21, 2018, Bologna, with two presentations and a poster

104th CONGRESSO NAZIONALE SOCIETA' ITALIANA DI FISICA, September 17-21, 2018, Arcavacata di Rende, with a presentation

EMSEV2018, September 17-21, 2018, Potenza, with a presentation and two posters

1° CONVEGNO NAZIONALE “ PRECURSORI SISMICI ED ELETTROMAGNETICI”, September 21, 2018, Portici, with a presentation

36th GNGTS, November 14-16, 2017, Trieste, with a presentation and three posters

Meeting organizer: *Lo studio dei terremoti recenti a venti anni dall'evento di Colfiorito*, with a contribution entitled: *Dalle luci sismiche di Colfiorito alle osservazioni della rete elettromagnetica dell'Italia Centrale*, Colfiorito, August 19, 2017

Il terremoto dal punto di vista elettromagnetico, in *Terremoto: sicurezza, prevenzione e precursori sismici*, Castello Orsini Colonna, Avezzano, May 6, 2017, invited

Lezioni per il sostegno nelle scuole medie superiori, Aula Magna, Pascal, Perugia, February 13 and 27, 2017

35th GNGTS, November 22-24, 2016, Lecce, with two presentations

Tavola Rotonda sul Terremoto, evoluzione, monitoraggio e prevenzione dei sismi, Hotel “Lieta Sosta”, Colfiorito, Perugia, November 1, 2016, invited

Meeting, *LUCI ANOMALE, Testimonianze, strategie ed investigazioni scientifiche per svelarne il mistero*, Teatro "G.Verdi" di Saludecio (RN), October 16, 2016, with an invited presentation

35th General Assembly of the European Seismological Commission ESC2016, Trieste, Italy, September 4-11, 2016, with a presentation and a poster

BSS16, *Forecasting Strong Earthquakes in Indonesia and Philippines from Space*, Trieste, Italy, June 27-July 1, 2016, with an invited poster

EXPOEMERGENZE, *Segnali che precedono il terremoto*, Umbriafiere, Bastia Umbra, Perugia, June 3-5, 2016, with a presentation

AGU 2015 Fall Meeting, San Francisco, December 14-18, 2015, with a poster presentation

34th GNGTS, November 17-19, 2015, Trieste, with a presentation and a poster

Corso di formazione per lavoratori, sicurezza negli ambienti di lavoro, pericoli speciali, art. 37 (1,2,3) del Dlgs 9 aprile 2008 n.81, CNA Perugia Srl, Perugia, July 14, 2015

Corso APC ORGMarche: *Acquisizione e analisi dati sismici per studi di geotecnica e microzonazione sismica*, Facoltà di Geologia dell'Università di Camerino, June 18-19, 2015

Corso di formazione per lavoratori, sicurezza negli ambienti di lavoro art. 37 (1,2,3) del Dlgs 9 aprile 2008 n.81, CNA Perugia Srl, Perugia, February 12, 2015

33th GNGTS, November 25-27, 2014, Bologna, with two presentations

Workshop, *L'importanza delle anomalie biologiche osservate durante i forti terremoti*, in La terra modenese e la natura violenta: gli eventi estremi degli ultimi anni, Medolla, Modena, October 25, 2014, with an invited presentation

Workshop, *Advances in Turin Shroud Investigations*, ATSI 2014, Bari, Italy, September 4-5, 2014, with a presentation

Forum internazionale di Protezione Civile, *Protezione Civile in Europa e Protezione Ambientale, Difesa del Territorio*, Abbazia di Colle Medio, Perugia, September 2, 2014, with an invited presentation

Workshop, *E' possibile prevedere gli eventi estremi e i terremoti?*, Abbazia di Colle Medio, Perugia, June 21-22, 2014, with an invited presentation

Meeting, *Sismicità, gas Radon, elettromagnetismo, radioattività, reti di monitoraggio ufficiali e amatoriali, stato dell'arte nella ricerca dei segnali possibili precursori sismici*, Pozzuolo del Friuli, April 25, 2014, with an invited presentation

EXPOEMERGENZE, the CIEN Project was selected Esposizione Nazionale Biennale Sicurezza ed Emergenza, Umbriafiere, Bastia Umbra, Perugia, April 10-13, 2014, with an invited presentation

Workshop, *Dal Progetto alla Risposta Sismica Locale, attraverso la Modellazione Specifica di Sito*, Osservatorio Bina Perugia, December 19, 2013, with an invited seminar

Workshop, *La geofisica nella professione del geologo*, Ordine dei Geologi della Regione Umbria, Park Hotel, Ponte San Giovanni, Perugia, November 29, 2013, with an invited seminar

32th GNGTS, November 19-21, 2013, Trieste, with a presentation and a poster

Workshop W4, *Hydrogeochemical precursors of seismic activity*, GEOITALIA, Pisa, September 12, 2013, with two invited presentation

Meeting, *Le salse ed i terremoti attuali e passati*, Riserva Salse di Nirano, Modena, June 9, 2013, with an invited presentation

EGU General Assembly, *Natural Hazards and Seismology*, Vienna – Austria, April 7-12, 2013, with a presentation and a poster

31th GNGTS, November 20-22, 2012, Potenza, with two presentations

EGU General Assembly, *Natural Hazards*, Vienna – Austria, April 23-27, 2012, with a presentation

30th GNGTS, Trieste, November 14-17, 2011, with a presentation and a poster

Il Programma “Idee” (ERC) del 7PQ di RST: *come partecipare e quali opportunità per la “ricerca di frontiera” a tematica libera*, training course, Perugia, October 24, 2011

Ottobre all'Abbazia - Natura - *Bufo Bufo tra Favola e Scienza*, Abbazia dei Santi Ruffino e Vitale, Amandola (FM), October 8, 2011, with a presentation

IONONTREMO, *Mostra e convegni sul rischio sismico liberi di conoscere e convivere con il terremoto*, Rimini, May 7-21, 2011, with two invited presentations

CSES - Teleconference Meeting, *CSES Italy-China, Working meeting for the CSES payloads development*, March 21-22, 2011

Meeting, *Prevenzione e Previsione Sismica*, November 19, 2010, Teramo, with an invited presentation

First Meeting of SAGA-4-EPR SAtellite seafloor Ground data Analyses for Earthquake Pattern Recognition, *Particle precipitation-earthquake correlations and the Central Italy electromagnetic network*, Roma, October 29, 2010, with an invited presentation

29th GNGTS, Prato, October 28-30, 2010, with two presentations

CSES Meeting, Italy-China, Beijin, September 6-11, 2010, with two presentations

CSES Meeting, Italy-China, Roma, August, 15-18, 2010, with a presentation

CSES Meeting, Italy group, Padova, July 1-2, 2010

EGU General Assembly 2010, *Natural Hazards*, Vienna – Austria, May 2-7, 2010, with a presentation and a poster

Meeting, *Osservazioni elettromagnetiche e gravimetriche relative al sisma del 6 Aprile 2009 a L'Aquila*, L'Aquila, 26-28 Aprile 2010, with a presentation and a poster

Technical Interchange Meeting (TIM) on the CSES satellite: *instrumentation and orbital requirements*, Perugia, February 5-7, 2010, with a presentation

28th GNGTS, November 16-19, 2009, Trieste, with two presentations

Conference, *100 anni dal terremoto Calabro-messinese*, Reggio Calabria, Dec. 10-12, 2008, with a poster presentation

EGU General Assembly 2008, *Natural Hazards*, Vienna – Austria, April 13-18, 2008, with three presentations and three posters

Technical Interchange Meeting (TIM) on the CSES satellite: *instrumentation and working sessions*, Perugia, February 16-21, 2008, with a presentation

9th ILEGW, International Conference on *Exploration and Utilization of the Moon*, Sorrento, October 22-26, 2007, with two presentations and a poster

IUGG XXIV, IASPEI on Progress in *EM studies on earthquakes and volcanoes – Seismo EM study using space technology*, Perugia, July 2-13, 2007

1st Workshop on *Photon Detection*, Hotel Giò, Perugia, June 13-14, 2007

PRIN05 Progress meeting, *Geomagnetic Space Mission Project*, LNF INFN, Frascati, May 18, 2007

Meeting, *Observation of the Universe from the Moon*, LNF INFN, Frascati May 7, 2007

Meeting, *Italian Vision for Moon Exploration, Studio Osservazione dell'Universo dalla Luna*, I Riunione Avanzamento, CNR Bologna, December 14, 2006

PRIN05 Progress meeting, *Geomagnetic Space Mission Project*, Terni, November 30, 2006

Italian Project Hessdalen Workshop, Bologna, June 17, 2006, with an invited presentation

Meeting, COHERENCE, Rome, April 21, 2006, with a tribute to Raffaele Bendandi

Meeting, *Monitoraggio elettromagnetico ambientale nelle bande ULF – ELF – VLF (0.001Hz - 100kHz)*, Progetto MEM, L'Aquila, January 22, 2005

Meeting, *Settecento abruzzese. Eventi sismici, mutamenti economico-sociali e ricerca storiografica*, L'Aquila, October 29-31, 2004

AGU 2003 Fall Meeting, San Francisco, December 5-12, 2003, with a poster presentation

21th National Conference GNGTS and 2nd Convegno Nazionale Sezione Italiana EAGE-SEG, Roma, November 19-21, 2002

Conference *2001 Nonlinear Guided Waves and Their Applications Topical Meeting*, Clearwater - Florida, March 26-28, 2001, with a poster presentation

5th international conference in *Quantum Communication Measurements & Computing*, Capry - Italy, July 3 - 8, 2000

Summer school *Nonlinear Optics*, Dipartimento di Fisica "A.Volta", University of Pavia, June 25 - July 8, 1999

Seminars

I terremoti nella Ionosfera, IIS Campus Leonardo da Vinci, Umbertide, January 8, 2020

Terremoti e onde radio in ELF e VLF, ARI Perugia, Ponte San Giovanni, February 1, 2018

Sicurezza in montagna in relazione ai fenomeni meteorologici – corso avanzato, Sez. CAI “G. Bellucci”, Perugia, April 21, 2017

Seminari sulle precauzioni da seguire in occasione dei forti terremoti, for students, Aula Magna IIS G. Bruno, Perugia, February 13,15,16, 20-24, 27, 2017

Seminario sulle precauzioni da seguire in occasione dei forti terremoti, for professors, Aula Magna IIS G. Bruno, Perugia, February 15, 2017

Le luci sismiche, una possibile interpretazione dalle osservazioni recenti della Rete Elettromagnetica dell'Italia Centrale, Teatro "G.Verdi" di Saludecio (RN), October 16, 2016

Sicurezza in montagna in relazione ai fenomeni meteorologici, Sede CAI sez. “G. Bellucci”, Perugia, May 20, 2016

Il terremoto del '97 a Colfiorito la "percezione" animale e la rivelazione strumentale, Sede del Parco di Colfiorito Area Ex-Casermette, Comune di Foligno (PG), October 17, 2015

Statistical correlation between electric perturbations recorded by a station of the Central Italy Electromagnetic Network and moderate seismic activity in Umbria Region, Università di Chieti G. D'Annunzio, July 13, 2015

I fenomeni elettrici di origine sismica e meteorologica, indicazioni sulla pericolosità dei fenomeni naturali, Università di Chieti G. D'Annunzio, July 5, 2014

Monitoraggio elettromagnetico in relazione ai fenomeni geofisici, Sede ARI, sezione Città di Castello, February 11, 2014

Electromagnetic monitoring in relation to geophysical phenomena, School of Science and Technology Physics Division, Camerino University, Camerino, January 23, 2014

The Central Italy Electromagnetic Network, a multidisciplinary monitoring to study the effects of geophysical fluids into the atmosphere, Workshop W4, GEOITALIA, Pisa, September 12, 2013

Statistical aspects of NOAA particles and global strong earthquakes data analysis, Workshop W4, GEOITALIA, Pisa, September 12, 2013

Fenomeni elettrici e di migrazione dei fluidi prima, durante e dopo i forti terremoti, Aula Magna della Facoltà di Agraria, Perugia, June 5, 2013

I Vulcanelli di Fango, punti di contatto con l'universo sotterraneo. Dai terremoti alla nascita della vita, Centro di Educazione Ambientale, Monteleone di Fermo, April 14, 2012

L'osservazione della natura nei periodi sismici: dal terremoto dell'Italia Centrale del 1873 al terremoto abruzzese del 2009, Abbazia dei Santi Ruffino e Vitale, Amandola (FM), October 8, 2011

Precipitazione di particelle misurate dai stelliti NOAA in occasione di forti terremoti, Dalla sismologia al terremoto raccontato dai Vangeli. Nuove prospettive per la sindonologia. Educatorio della Provvidenza, Torino, July 16, 2011

Le previsioni di Raffaele Bendandi, IONONTREMO, Teatro degli Atti di Rimini, May 20, 2011

Le luci sismiche. Una costante nella storia dei grandi terremoti, IONONTREMO, Teatro Corte di Coriano (RI), May 19, 2011

Correlations between NOAA satellite particle bursts and strong earthquakes, Phys. Department Perugia University, May 18, 2011

Segnali elettromagnetici e terremoti, Geology Department, Gabriele D'Annunzio University, Chieti, January 14, 2011

Fenomeni Elettromagnetici e Terremoti, Prevenzione e Previsione Sismica, Teramo, November 19, 2010

Correlations between NOAA satellite particle bursts and strong earthquakes, INFN sez. of Perugia University, November 11, 2010

ELF electromagnetic signals in Central Italy, CEA Department, Beijin, September 10, 2010

Earthquake lights of the April 6, 2009, L'Aquila earthquake, Perugia, February 15, 2010

Correlations between strong earthquakes and NOAA satellite energetic particle bursts, Phys. Department Perugia University, January 22, 2010

Dal terremoto di Norcia-L'Aquila del 1703 a quello del 6 aprile 2009, Perugia, May 28, 2009

Week of Scientifical and Technological Culture, IX "faentina" edition, presentation of the work: *Le previsioni di Raffaele Bendandi*, Faenza, April 3, 2009

NOAA particle data and correlations to seismic activity, CNR Perugia, Oct 16, 2008

Week of Scientifical and Technological Culture, VII "faentina" edition, presentation of the work: *Raffaele Bendandi e il vento solare*, Faenza, March 30, 2007

Week of Scientifical and Technological Culture, VI "faentina" edition, presentation of the Raffaele Bendandi's work: *Le stelle soli dell'infinito*, Faenza, May 9, 2006

Relation status: electromagnetic emissions linked to tectonic and seismic activity, INGV L'Aquila, Forte Spagnolo, December 22, 2004

On the principles and paradoxes of quantum mechanics, Physics Department of Camerino University, May 22, 2002

Wholeness as a new aspect of quantum theory, Physics Department of Camerino University, May 8, 2002

On the causal interpretation of quantum mechanics, Physics Department of Camerino University, May 2001
